## **DETAILED ACTION**

### **Appeal Conference**

1. In response to the appeal brief, filed 12 October 2010, an appeal conference was held on 22 December 2010, with Examiner J. H. Hur and Supervisor Richard Elms. Upon consideration of the arguments presented in the brief, it was determined that the 35 USC 103 rejections of independent claims 1, 9, 17 and 20 will be withdrawn (per MPEP 1207). See the reasons for allowance below for more details.

### **EXAMINER'S AMENDMENT**

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In claim 8, "if the states" has been replaced with --if states--; and "is equal to a first" has been replaced with --are equal to first-- (antecedent and grammatical informalities).

In claim 22, "having" has been replaced with --has-- (grammatical informality).

### **Allowable Subject Matter**

3. Claims 1, 4-10, 13-17 and 20-22 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding claims 1, 9, 17 and 20 (and the respective dependent claims), the prior arts of record do not disclose or suggest, in combination with all other limitations in the claim, a thin oxide gated “fuse” (as described in paragraph [50] of the instant specification) having an oxide that is less than 2.5nm thick. Particularly, per MPEP 2144.05.III and 716.02(a), in rebutting the prima facie case of obviousness based on overlapping ranges, the applicant has persuasively shown that the claimed range (i.e., an oxide thickness of “less than 2.5 nm” in a thin oxide gated “fuse”) is critical and achieves unexpected results (i.e., direct tunneling and an order of magnitude lower after-programmed resistance) relative to the prior art range (i.e., “from about 2 to 10 nm” in Gelsomini, column 4, line 4). See pages 7-8 of the appeal brief, filed 12 October 2010.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”

### **Conclusion**

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to J. H. Hur whose telephone number is (571) 272-1870. The examiner can normally be reached on M-F 8:00 AM - 4:30 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner’s supervisor, Richard Elms can be reached on (571) 272-1869. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
